THE GLOBAL MARKETPLACE FOR MARRIAGE

Marriage Emporium

Not a dating app.
A marriage marketplace.

Your profile is a written marriage contract. We match you only with people who want the same marriage.

Step one

Write your marriage contract.

Not a profile form: a guided draft of the marriage you intend to build, in six chapters. It becomes what others search.

- **Weight every term.** Mark each answer as one of three, so matching reflects what truly matters.

- **Verify your identity.** Photo and government-ID checks earn the badge on your card.
- **Keep it free.** Writing your contract costs nothing. Sign it, and you are searchable.

Step two

Match with clarity. Then negotiate.

No swiping. The engine reads whole contracts and ranks the people who want the marriage you wrote, with the score to prove it.

- **Ranked contracts.** Scored term by term against yours. Non-negotiables decide first.
- **Hearts, then conversation.** Send a heart. When it is returned, the conversation opens.
- **The Negotiation Room.** Refine one shared contract, clause by clause, with a facilitator to keep it honest.
- **Letter of Intent.** Signed and countersigned to seal your engagement in writing.
